01/10/2004 - 30/09/2005	Postdoctoral Researcher (KULeuven)
01/10/2003 - 30/09/2004	Postdoctoral Researcher (KULeuven)
01/10/1997 - 30/09/2003	Research Assistant (KULeuven)

## **Education**

1997-2003	Psychology (KULeuven): PhD
1995-1997	Psychology (KULeuven): Master
1992-1994	Psychology (KULeuven): Bachelor

## **Languages**

Dutch	Mother tongue
English	Advanced
French	Fair
German	Fair
Spanish	Beginner

## **Computer Skills**

I am familiar with the Microsoft Office package (Word, PowerPoint, Excel, and Outlook), with statistical software (SAS, SPSS, and Lisrel), and with the Adobe package (Photoshop, Dreamweaver, Illustrator, Indesign, Flash, and Premiere). Apart from that, I have a good knowledge of HTML, CSS, and Content Management Systems like Drupal, and I have fair knowledge of JavaScript, JQuery and PHP.

## **Personality Characteristics**

I am rational, analytic, and goal-oriented. When confronted with a task or a problem, I will look for a short-cut to a high-quality solution. In this, I am also quite persistent. If I say a task will be done by a certain date, the task will be done (no matter what). I am pretty perfectionist (in the sense that I would hate having to deliver a crappy outcome) but not in a maladaptive way. I am quite good at judging whether benefits in terms of the quality of an outcome are worth the additional time it would take to achieve this better-quality outcome. I am not particularly conformist either. I like to think out-of-the-box. Don't expect me to follow the herd when I think it is heading in a wrong direction. If so, I will speak out, and I will provide arguments to back up my claim. Of course, I will be open to both counter arguments and the concerns of others. My ego is rarely at stake. This generally makes me a quite good team player by whom other team members feel both respected and at ease.

## **Experience in Research**

As a doctoral student and as a post-doc at the psychology department of the KULeuven (Belgium), I have been conducting research on a wide variety of topics, including intergroup relations, racism and prejudice, authoritarianism, religiosity, goals and values, morality, empathy, well-being, depression, self-esteem, perfectionism, attachment, personality, processes of both personal, social and national identity, and parent and peer influences. I have approached these topics from a variety of theoretical perspectives (i.e., developmental psychology, social psychology, personality psychology, motivational psychology, and psychodynamic theory). This resulted in a wide variety of scientific publications and in receiving The Margaret Gorman Early Career Award 2007 [granted by Division 36 (Psychology of Religion) of the American Psychological Association (APA)].

## **Experience in Teaching**

Between 1997 and 2003, I taught practical sessions in Developmental Psychology to Psychology and Educational Science students at the KULeuven (Belgium). Between 2001 and 2003, I taught practical sessions in Psychometrics. In 2006, I taught part of a course in Research Methods in Psychology to Religious Science students at the KULeuven (Belgium), and in 2009 and 2010, I taught a Personality Psychology course to bachelor students in Educational Science at the KULAK (Belgium) and bachelor students in both Psychology and Educational Science at the KULeuven (Belgium). Apart from teaching, I also have extensive experience in giving presentations (see below).

## **Experience in Supervising**

I supervised over 20 master's dissertations and co-supervised two doctoral dissertations. Specifically, I co-supervised the doctoral dissertation of Joke Meeus on the interaction between personality features and group processes in the prediction of negative outgroup attitudes (KULeuven, Social Psychology) and of Arjan Reijerse on the effect of national identity representations (KULeuven, Social Psychology). I was also a member of the commission supervising the PhD projects of Ilse Smits (KULeuven, Developmental Psychology), Bart Neyrinck (KULeuven, Motivational Psychology), Kaat Van Acker (KULeuven, Social Psychology), Kristof D'Hondt (UGent, Center for Developmental, Personality, and Social Psychology), and Joanna Blogowska (UCL, Center for Psychology of Religion). Finally, I served as an international expert for a research project on religiosity and parenting in the UK.

## **Experience in Communication**

I am a fluent writer and I enjoy communicating a message as clearly as possible. I have experience in writing all kind of texts (i.e., scientific reports, editorials, etcetera), editing the texts of others, and providing useful feedback. In the past, I wrote articles for Veto (a student magazine) and Gonzo Circus (a music magazine), and, for several years, I also had a show on Radio Scorpio with some friends. I also have extensive experience in photography, graphic design and web design in all its aspects (from design over programming and text editing to sending news letters). Since October 2011, I am a freelance photographer, graphic design and web designer. My portfolio can be found on my website. The combination of these experiences makes me suited to coordinate all kinds of campaigns. I have good language skills, a good sense of aesthetics and a quite large technical knowledge of all steps from idea to campaign. In addition, I speak the language of laymen, designers and programmers.
